SUMMARY   Enthusiastic web developer with a background in brain injury rehab. I've always had a passion for creating things and helping people. I switched careers to help make projects that are user-friendly as well as visually appealing, and to explore the possibilities of technology.

EDUCATION   *Grand Circus Detroit*
Front-End Web Development Bootcamp, 2018
Worked with team of three on art discovery application

Wayne State University
BA, Psychology 2010
